---

We run Kitchen Garden Program in rural areas. Every year we distribute seeds to 100 families to develop their own kitchen gardens. This is supported by Action for Agriculture Renewal in Maharashtra, (AFARM) , Pune.

Previously vegetables used to be abundant in rural areas and everyone used to grow them but this is not being done anymore. Due to that, most families buy their daily consumption of fruits and vegetables from the market. So far, farmers were using different types of chemical fertilizers, pesticides and hormones for their cultivation. Such use of chemicals has adverse effect on the environment and in turn affects health of human beings. In order to raise awareness of organic farming we are implementing the Kitchen Garden program ( Parsabag- परसबाग ) with guidance from AFARM, Pune. Through this program we educate people in the villages about the importance of organic farming and we show them how to cultivate fruits and vegetable without the use of any fertilizers or pesticide. We impress upon the that such organically produced fruits and vegetables are good for their health. We go further, we distribute native seeds and teach them how to manage the seeds for future.

To ensure the sustained diet of vegetables in the rural community and to prevent malnutrition, the effective implementation of the program was organized support the AFARM, Pune, and came under the jurisdiction of the organization i.e. Hingoli block's villages. Free of seeds distributed free of cost by guides to women's self-help groups established by the organization and other women. Kitchen garden's seed Provided by AFARM, Pune, at a very low price.

### **Library:**

The organization has started the library with its own library in 2014-15, for the volunteers, employees, other beneficiaries of the organization. The purpose behind this is to update their knowledge.

### **Skill Development Program:**

In order for a human being to live a self-sufficient life, he needs to acquire the necessary life skills to meet his daily needs.

Today the population is very large. The proportion of young people is also high. But if you want to start a business, you can't find people with special skills. This creates difficulties in development work. With that in view, our organization has started skill training programs. In the year 2018-19, our Skill Development Training Center has shifted from Jamthi Khurd to Adarsh Colony Hingoli. It has been approved by Maharashtra State Skill Development Society, Mumbai.

Our organization is affiliated with Maharashtra State Skill Development Society, Mumbai. Through this we are imparting training on vermicompost and vermicompost

production to new young farmers from the year 2016-17. Through this we are motivating and motivating the trained youth to do organic farming. This year, the institute has received approval from the government to impart skills training in vermicomposting, organic manure production, agribusiness and entrepreneurship development, hand embroidery and traditional embroidery in the garment department. The organization is making a sincere effort to implement this program of efficient job creation effectively.

### Biodiversity Management:

To create awareness among the villagers about the importance of environmental protection. For this purpose, various programs are organized by the organization. It includes tree planting, public awareness, awareness about biodiversity conservation, etc.

Maharashtra State Biodiversity Board Nagpur has selected our organization as the coordinating body for the establishment of People's Biodiversity Conservation Committees at Gram Panchayat level in the year 2016. We have set up committees of 30 gram panchayats in Hingoli taluka of Hingoli district and submitted its report to the government.

2018-19 to January 2019 to January to February. During the period 2020, On the orders of Hon. Principal Chief Forest Conservation and Member Secretary, Maharashtra State Biodiversity Board, Nagpur, the work of preparation of People's Biodiversity Register from 12 Gram Panchayat People's Biodiversity Management Committee in Hingoli taluka have successfully recorded.

The Zilha Parishad administration has taken note of this work and people from other villages in the district have been given the task of preparing People's biodiversity Registrar.

The organization has worked with the Biodiversity Committees. Through these committees, various programs are to be organized in the Gram Panchayat area. It aims to organize initiatives such as tree planting and tree conservation, wildlife conservation, awareness on the Biodiversity Act 2002, skills development, organic farming programs, sustainable production from waste. The organization is working for the sustainable development of the village through this program. Financial support is needed for the comprehensive implementation of the above-mentioned programs.

---

rivers, streams, lakes, dams. The situation has arisen as to whether there is enough water for animals and birds to drink in rivers, streams, lakes and dams.

The migration of humans, animals and birds for drinking water has increased. The production of farm produce declined, the peasantry was in trouble. Drought conditions prevailed. To overcome this, the Government of India and the State Governments came up with some measures. Among them, sludge free dam - sludge free shivar scheme. Our organization accepted the government's call for NGOs to participate in this scheme. Our organization has been working in the field of agriculture and environment from the very beginning. As it is a scheme for the benefit of the farmers, we decided to take an active part in this scheme and worked.

In this program, under the Natural Resource Management program, we worked under the scheme of Sludge Free Dam and Sludge Free Camp. Our organization in the year 2017-18 Manavlok Ambajogai Dist. An agreement has been signed with Beed. Under this program, we have started the month of April - May 2018 in Gram Panchayat Bhingi Ta. Sludge from Hadgaon Irrigation Lake at Hingoli was removed by JCB machine. The farmers took the sludge to their fields with their own or rented tractors. We gave this sludge to the farmers for free.

This increased the depth of the dam and increased the water level in the dam. The water level in the farmers' wells increased as the water seeped into the ground. The fertility of the farmers' 32 acres of farmland increased. Increased soil fertility reduced the cost of production on farm land. This led to a dramatic increase in the overall production of farmers.

However, the poor farmers could not afford to rent a tractor, so they could not get a leader even though they wanted to. Donors are expected to help.

Through this the youth of the village got employment. The tractor owner also received income. The farm laborers also got employment on the farmer's farm and will continue to get it. This is our small effort to eradicate poverty and drought. This is definitely beneficial. This is our attempt to overcome the drought situation.

Under this program, in year 2017-18 we working with Govt. of Maharashtra Desalting dam project ( गाळ मुक्त धारण व गाळमुक्त शिवार योजना ) support by Manvlok , Ambajogai & Caring Friend Mumbai . In this year we complete one dam desalting work. Under this program, our organisation has been don Desilting work , Hadgaon minor irrigation dam Grm Panchayt, Bhingi Block & Dist. Hingoli . we provide dam silt free of cost to the farmer. The farmers carry 9805 /27266.13 Cu. M. tractor trolley silt by their own / rented tractor to their farms.

This increased the depth of the dam. So the water level in the dam increased. Farmers' rivulet due to water in the soil ,Water level increased. Fertility of farmers' land increased. Growth of soil fertility will increase productivity of farmers.

## Jayavantrao Ghyar Patil Sevabhavi Sanstha, Satamba

In this, the government will be given the cost of fuel JCB machine. While the rest of the JCB machine rental, Manvlok Ambajogai and Caring Friends Mumbai .

In this case, the poor farmers could not afford the tractor because they did not get a leader even after the scam was desired. It is expected to help the donor only for this.

Through this work , the youth of the village got jobs. The tractor owner also got income. Farmers also get employment and will still be available to the farm workers.

Our simple attempt to eradicate poverty and eradicate poverty. This is definitely worthwhile.

This is our endeavor to overcome the drought situation.

### • Organic Farming Program:

We are run Organic Farming program. In the year 2018-19 we arrange Organic awareness camp was organized at. Jamthi Khurd & Bhingi Block & District - Hingoli. Instructions for the Kharif and Rabbi Season were started successfully in the first fortnight of June, and October. The instrument of the organization also participated in this training. The program is organized in collaboration with our Agricultural skill development center.

Under this program, we are making awareness about organic farming. Because organic farming is the need of the times. Excessive use of chemical fertilizers, pesticides and hormones contributes to human health. Also, the health of the soil is worsening. The fertile strength of the feminine is decreasing day by day. The overall impact of this is on social health. Suicides caused by farmers' debt burden, increased proportion of addiction, understanding of the loss of farming business has made them feel that they are not interested in doing small farm business. Agriculture has been divided into brothers and therefore the area of land is reduced. There is a mentality not working in the city, but there is a feeling of disease among people. The disease has increased in the villages. 35-40 years ago, there was no diabetic disease in 5 to 10 villages. Now, the number of people suffering from diseases such as diabetes, blood pressure, heart attack etc. is increasing day by day. There is a need for

chemically free food for this. Demand for organic food is increasing in urban areas especially from educated people. But it does not get to be sure.

We are giving a sense of this fact to our program. Through this, Organic Farmer Productive Group has been formed at Jamthi Khu. Block & Dist: Hingoli. We have registered this with the Agriculture department Maharashtra Department of ATAMA, Department and organic grain production is going on through this group. The farmers also get the benefit of various schemes of the government. Our organization has a desire to extend & implement this program.

### • Gymnasium:

Organized gymnasium for the youth to maintain the spirit of the game. At. Village Jamthi Khurd block & district Hingoli the gymnasium has been constructed in its own place in year 2009-10 to 2013-14. This construction has been done by the District Sport Officer, Hingoli and Organization's Fund. Sports Authority of , district Hingoli for the gymnasium has registered for materials the year 2014-15. But still do not get the materials from them.

### • Health related programs:

#### Health check-up program:

The women's expert doctors, who were established by the institute, provided health check-up camps to them and provided guidance on health. The organization has a mind to implement this program in the rural areas.

---

### • Women Empowerment Program: Women's Self-Help Groups:

Organization took the meeting of the members of the Women Self-Resource Group, established by the organization, and guided them to keep their records, guide them to participate in government's & Grampanchayat's village level various activities E.g. Tree Plantation, Village Cleanliness, open defecation free village, etc.

### • Job Guidance & Job Card Disturbance:

Guidance should be given to the youth regarding employment. The organization planned this program to provide employment opportunities. In this, using modern technology, good opportunities were created for the youth through job cards. For this, the organization received financial support from Genext Hardware and Parks Pvt. Ltd., Mumbai. This is a CSR company. Through this, the organization, in collaboration with JDS Advertising Pvt. Ltd., Hingoli, created 6000 job cards and distributed them at Yavatmal. These unemployed were informed about the related employment through message. As a result, unemployed youth in rural areas were informed about job opportunities in national / international level companies. This was an innovative initiative implemented through the organization.

### • Tree Plantation Program:

Under Environmental Awareness, our organization organizes tree planting programs every year. This year also our organization organized a tree planting program. With the participation of local people, the organization organizes a tree planting program on the occasion of Environment Day on 5th June. This year too, tree planting was done with the participation of local citizens. He also planned to take care of these trees. He also appealed to the Gram Panchayat Gram Panchayat Biodiversity Management Committees to take active part in the government's tree planting drive. He also took an active part in the event.

### ● E Rickshaw Program:

The organization is working in the field of environment. The number of automated vehicles is increasing day by day. Due to this and other reasons, air pollution and noise pollution is increasing day by day. With the aim of reducing air pollution and noise pollution, our organization decided to implement an innovative initiative called e-rickshaw with the objective of reducing air and noise pollution to some extent if there is an electric rickshaw that is environmentally friendly. For this, the organization signed an agreement with a company called Senior Geysers in Mumbai. In that connection, we decided to implement this program in Hingoli district.

Under this, it was decided to provide unsecured loans to the beneficiaries below the poverty line and low income group. We also planned to facilitate loan repayment in easy installments. Beneficiaries from needy families connected through various initiatives with the organization were selected. A meeting of selected beneficiaries was also held. In the first phase, distribution of e-rickshaws to 25 beneficiaries was planned. However, due to some technical issues, the supplier company has postponed the program to be implemented across Maharashtra. Therefore, further processing could not be done.

As this initiative is very useful for balancing the environment, we are making efforts to run e-rickshaws in Hingoli district.

### NGO Capacity Building:

In order to build the capacity of the organization under this program, the representatives of the organization have the presence of the representatives of the organization at the workshops, meetings, conventions organized as per the mission policy of the organization. In this, the organization of AFARM, Pune is a member of the general meeting. The training program Kitchen Garden organized by AFARM; Pune was actively attended by the representatives of the organization. Representatives also participated in the annual meeting and workshop. The workshop organized by them is attended by the representatives of the organization in the annual meeting. The workshop was organized by Maharashtra State Biodiversity Board Nagpur. Also, in the International Science Festival 2018 organized by Vibha Vani, New Delhi and Government of India, at Lucknow Uttar Pradesh. Here the representatives of the organization reported active participation. His Excellency the President of India, Hon. Mr. Ramnath Kovind, The Chief Minister of Uttar Pradesh and other dignitaries showed up.

#### 11) National Day Program :

National Day Program: 15th August Independence Day, January 26, Republic Day, 1st May Maharashtra Day , National Day Hon'ble Dr. Babasaheb Ambedkar, Mahatma Gandhi, Lal Bahadur Shanti, Lokmanya Tilak, Mahatma Phule, Rashmarmata Jijau, Chhatrapati Shivaji Maharaj, Nation Saint Gadgebaba, etc. have participated in the Joint Annual Program.

Thus, the organization successfully implemented various programs in the financial year 2018-19.
